

2026 ESG Report

Environmental, Social, and Governance Advancements

Commitment to a Sustainable Future

At Plexuspharmaco, our mission to improve patient lives is inextricably linked to our responsibility towards the planet and our communities. The 2026 ESG Report highlights our accelerated progress towards carbon neutrality, our unwavering dedication to supply chain ethics, and our comprehensive diversity initiatives.

Environmental Stewardship

In 2026, we transitioned our two largest manufacturing hubs in Germany and Switzerland to 100% renewable electricity. We have also implemented closed-loop water systems in our synthesis plants, resulting in a 30% reduction in freshwater withdrawal year-over-year.

Social Responsibility & Access to Medicine

Through our 'Plexus Care' initiative, we supplied essential cardiovascular medications to over 500,000 patients in underserved regions at manufacturing cost. We believe that zip codes should not dictate health outcomes, and we are expanding this program to encompass our oncology portfolio by 2028.

ESG Metric	2025 Baseline	2026 Achievement	2030 Target
Scope 1 & 2 GHG Emissions (MT CO2e)	45,000	38,250	Net Zero
Waste Diverted from Landfill	72%	84%	>95%

ESG Metric	2025 Baseline	2026 Achievement	2030 Target
Employee Volunteer Hours	12,500	18,000	30,000
